10		10		10		10

Maintenant et au début de votre prochain tour : **+2 Cartes** et **+1 Achat**.

+1 Action
Once this turn, when you gain a Duration card, you may play it.

+1 Achat
Écartez une carte de votre main. + égal au coût de la carte écartée.

At the start of your next turn, + **2** and you may trash a card from your hand.

If you gain a Duration card the turn you play *Sailor*, playing it is optional.
This is cumulative; if you play two *Sailors*, you can play up to two gained Duration cards. However two *Sailors* cannot play the same *Sailor* applies to cards gained due to being bought, or gained other ways, such as with *Workshop*.
If you gain a Duration card in your Buy phase, *Sailor* can play it, even though it's your Buy phase. If such a card gives you +Actions, that doesn't let you play more Action cards in your Buy phase; if it draws Treasure cards, you can only play them if you haven't bought any cards yet.
The ability to play Duration cards only happens the turn you play *Sailor*, on your next turn, you just get + **2** and may trash a card from your hand. The Duration doesn't need to be an Action, meaning that you can play Night-Durations when you gain them (like *Cobbler*).
If you exchange a *Hero* for a *Champion*, you aren't gaining it, so you can't play it.
If you gain a *Garrison* and play it, you'll immediately add a token to *Garrison*.
This can play a gained Duration even if it was gained to somewhere other than your discard pile (such as a *Guardian*, or a card gained with *Blockade*), or if another card is trying to move it at the same time (such as *Gatekeeper*). But if the gained card has already gotten moved (e.g. by another *Sailor*), then this can't play it.

Quai: Vous piochez 2 cartes et avez un achat supplémentaire ce tour-ci. Ensuite, au début de votre prochain tour, vous piochez à nouveau 2 cartes supplémentaires et vous avez un achat de plus. Vous ne piochez pas les 2 cartes de plus pour votre prochain tour avant que ce tour ne débute vraiment. Laissez cette carte devant vous jusqu'à la phase **Ajustement** de votre prochain tour.

Si vous avez au moins une carte en main, vous devez l'écartier. Si vous n'avez pas de carte en main à écartier, vous n'obtenez pas de pièces, mais vous recevez tout de même **+1 Achat**.
